### LOCAL MATTERS.

OF SEE SECOND AND THIRD PAGES. WE

TURNVEREIN.-Those of our readers who are desirous of spe ding a pleasant evening, in witnessing German histriouics, will do well to bear in mind that this is the last entertainment of the kind this season. The programme offers a tempting attraction.

THE PIC-NIC of the German School will come off to-day, according to announcement. We wish the little folks a great deal of pleasure, and if we can compass it, hope to make use of the kind invitation tendered us by the committee, and spend Pfingstmontag with them auf alte vaterlanp sche Weise.

THE EXERCISES OF MOSSIE. PELOT & SHERFESDE'S Commercial School will commence this evening at eight o'clock, at Masonic Hall, corner King and Wentworth streets. Mr. STEPHEN E. PELOT'S pupils, who have not completed their course of instruction, are requested to attend. See advertisement.

LARGE SHIP AND CARGO. -The American ship Hudson, Capt. Porren, which has been loading for a few weeks past for, Liverpool by Messars, WILLIS & CHISOLM, has nearly completed her cargo-wanting about one hundred bales cotton to fill up. She is the largest merchant vessel that has taken in freight here since the termination of hostilities, being about 1130 tons, and will carry some 4000 bales cotton, and is now bending her sails, preparatory to going to sea.

THE GRAVES OF THE CONFEDERATE DEAD .-- A meeting of the Ladies' Association, to commemorate the Confederate dead, will be held at the English Lutheran Church, corner Archdale and Clifford streets, this evening, at five o'clocs. The Rev. Mr. WIGHTMAN will deliver an address to the ladies of the association. We are requested to say, however, that the Church will be open to all, and it is most desirable that the ladies of Charleston-all who take an interest in the welfare of the association - shall show, by their presence there, that they have not forgotten our gallant dead.

THE U. S. Monitor Squando left this harbor on Thursday in convoy of the U. S. Steamer Lenapee, bound for Philadelphia, where she will go out of commission and be laid up at Lesque Island. The Squando is the first light draught monitor which ever has been south of Fortress Monroe. , She arrived here August 2d, 1865.

The following is a list of her officers: Lieutenant Geo. P. Ryan, U. S. N., Command-

Ensigns: R. H. Lanphier, A. A. Frazen, Charles R. Fleming, George W. Beverley.
Ass't Surgeon. B. Semig.
Paymaster, Geo. W. Sellew.
Engineers: Second Assistant John Doyle, in charge, Third Assistant Engineers: E. A. Robinson, E. Collins, C. D. Dyce, L. Calloway, Carpenter, Geo. E. Anderson.

THE JEWISH PENTECOST, or Shebuoth, commenced on Saturday night, and will terminate this evening at starlight. It is observed by the Israelites agreeably to the Divine command, "And ye shall count unto you from the morrow after the Sabbath (first day of Passover) from the day that ye brought the sheaf of the wave offering. There shall be seven complete Sabbaths. Even unto the morrow after the seventh Sabbath shall ye number fifty days." From the counting of "wceks," therefore, this festival derives its name, it being literally a "Feasts of Weeks." On the fiftieth day, or morrow after the seven complete weeks, an offering was brought unto the Lord of the first fruits of the land; and we can readily understand the feelings of an agricultural people at having the blessing of God on the fruits of their labor, and how readily they must have brought a portion thereof as an offering unto Him. But, besides this, the first day of the festival is the anniversary of the most important event that occurred to Israel, the giving of the ten commandments from the heights of Sinai-the Law, also poetically called "the Light." This "light" they have preserved from generation to generation. It has been with them throughout all their journeys, even in the land of their enemies; and, although centuries have rolled by, it still exists as an "in-heritance of the congregation of Jacob."

In Europe, the synagogues are tastefully decorated with flowers and branches, suitably celebrating the vernal feast.

Accident AND Cononer's Inquest.—An accident occurred Friday last on East Bay, a little above Broad atreet, which has been attended with serious consequences. Dr. R. A. KINLOCH Wes driving in his buggy, and found the street obstructed by a dray; the drayman refusing to give sufficient room for the buggy to pass: The doctor, thinking that the necessary space would be afforded him, as the sidewalk was close upon his right, made the attempt to pass, but failed in taking up his horse in time to prevent a collisien. The drayman, feeling that he was at fault, moved off hurriedly, and thus escaped arrest.

Dr. K.'s little son, aged three years, and a colored servant, aged twenty-five, were with him in the buggy. The horse fell, and stuck in the soft mud (abounding in that part of East Bay-street). The occupants of the vehicle were quickly liberared without apparent injury. The colored boy Adam, however, upon reaching home, began to suffer from pulmonary hemorrhage, which, in spite of medical means, proved fatal late in the evening. The post-mortem examination, made by Drs. Edward Geddings and R. A. Kinloch, disclosed general codema of both lungs; with extensive chronic disease of the heart. The lieart was hypertrophied and the mitral and semiluner valves much diseased. The medical opinion was that the chock and excitement, consequent upon the accident, so acted upon the diseased heart as to produce the acute ordems of the lung, which was the immediate cause of death. The verdict of the Coroner's Jury was, "death from disease of heart."

The matter has been put in the hands of the police, but up to date we have not heard of the

drayman's arrest. MILITARY CONSISSIONS. The Columbia Phenix. of Saturday says: "We are pleased to learn that an order has been received at this post suspending the operations of the 'Military Commission' now convened for the trial of certain ditizens of Laurens and other Districts. We are credibly informed that the roign of, Military Commissions'

PROVOST COURT, May 20 .- U. S. vs. Great Rivers Throwing Bricks, etc.-Private GARRETTI, Poiceman, sworn, stated that he was in State-street esterday; the defendant threw a brick against a gate at a dog inside, and ran when he saw the police; was not violent or abusive. The Court

U. S. vs. Emanuel, Grey .- Drunk .- Private CONWAY, Policeman, sworn, says he found defendant drunk and unable to take care of himself. Sentenced to pay a fine of \$3 or to three days' imprisonment

garet Godfrey, sworn, stated that defendant came to my mother's, sud took money out of my mother's dress pocket; we missed it as soon as she went out; when she was arrested she had the dress on.

Nancy Godfrey, sworn, stated that the dress the defendant now has on she stole from witness, and also some money with it (about 70 cents); I had her, when she had the small pox, and paid the doctor's bill. Was found guilty and sentenced to three days' hard labor, ambject to order of Post

Commander. U. S. vs. Jerry Kelly.—Selling Fish without License.—Michael Shanahan, Policeman, sworn, stated that he saw defendant selling fish this morning without a license; the man who bought the fish could not make the change, and when I asked him about it, he said he had no money to pay for a license; searched him, and found two dollars on him. Found guilty and fish forfeited.

U. S. vs. John Price.-Carrying an Iron Stick, Private J. Coon, Policeman, sworn, says, I am No. 66; last night I and another man, at about one o'clock, found some colored soldiers standing in Princess-street, opposite West-street, when they fired two shots, which went right between us; they then went to Mazyck-street; the jail officer saw it; they then went to the corner of Mazyon and Magazine streets, and fired two shots more; these we heard plainly ; we went on there and met the jail officer, and the defendant was in his charge, and he had this iron rod in his hand. Found guilty, and was sentenced to pay a fine of \$5 or to five day's hard labor.

U. S. PS. HARMAN BLENKNER, white. - For Abuse and Throwing Bricks.—Mary Kirk, colored, sworn, stated that she put some rice in the yard this morning to feed some chickens; defendant took it up ; told him to let it alone ; when he abused her, alling her sundry names,—very naughty, and not to be found in either calendar or catechism : then threw bricks at her, one of which she pathetically remarked "like to 'a broke my back,"

Defendant being asked what he had to say for himself, said that this woman lives in the yard of the house in which he resides; that she is a cook and very quarrelsome. All of which witness denied indignantly; saying that he misrepresented her character; that he was trying to produce the impression upon the Court that she is no cook and no servant; she resides with her former master, and is free, while he (defendant) is nothing but a hired clerk, etc., etc., etc. [Witness looked large, earnest and respectable.

The Court found defendant guilty, and fined him five dollars; and furthermore ordered to give a bond in one hundred dollars to keep the peace for six months.

SPARTANBURG .- The Columbia Carolinian, of Saturday, brings us the following interesting intelligence about the facilities for manufacturing in the upper part of our State. Mesers Kar & Hewerson, architects and engineers Columbia, S. C., have been for sometime engaged in making an accurate survey of the above shouls, and have kindly furnished the Spartanburg Express with

an accurate survey of the above shoals, and have kindly durnished the Spartanburg Express with the following results of their labors.

The total fall of the Enorse River, at the Mountain Shoals, in a distance of 2000 fost, is feed.

The most rapid descart is between the budge and Two Mile creek, where in a distance of 450 feet the fall from head of Shoals to bridge is 9 feet, and from Two Mile creek to fost of Shoals 17 feet, There are excellent mill or factory locations on both the Spartanburg and Laurens sides of the river, with almost unlimited water power.

On 2 mile-creek, a considerable stream, which enters the Enorse just below Mr. Nesbit's fluring and saw mills, and a few hundredyfeet from the mouth, there is a fine mill location—the stream hore, in a distance of 200 feet, having a fall of 17 feet.

The above exhibit is but one among the many that Spartanburg District might present, of its vast resources in water power. The Tygers, Racolets and Fair Forest, with their numerous tributaries, all containing many shoals, falls and rapids, are able to work all the machinery that the capital and enterprise of this country could construct in the next twenty years. We hope that our enterprising citizens will avail themselves of the services of these skilful engineers, in making similar surveys along our streams, that an accurate factor is the state generally.
